

NORSEMAN STRUCTURES IS RELENTLESS IN FINDING THE RIGHT SOLUTION

Utility Product Line QG-Series

MODEL	QG180	QG260	QG260HC*					
Bldg Width	18' (5.4m)	26' (7.9m)	26' (7.9m)					
Peak Height*	18' (5.4m)	14' (4.2m)	18' (5.4m)					

TRUSS SPACING
Truss spacing is available in the following configurations: QG180 - 5' & 10' (1.5m & 3.0m); QG260 - 5', 8' & 10' (1.5m, 2.4m & 3.0m).

*Approximate peak heights. *HC = High Clearance

QG-SERIES 18' & 26' WIDTHS (5.4m & 7.9m)

A bright and spacious work environment.

The QG-Series clear-span buildings are constructed using high quality components giving you quick-to-install work and storage space that is built to last.

The high clearance (HC) model provides exceptional peak height for storage of oversized vehicles like RVs. The translucent covers give you a pleasantly bright indoor environment that is cooler in the summer and warmer in the winter.

- Clear-span interior for increased storage space and easy maneuverability.
- 18' wide (5.4m) buildings are available in a cost effective, convenient package which includes:
 - two fabric ends
 - one 12'w x 14'h roll up door (3.6m x 4.2m)
 - 42" rebar anchors (1066mm)
 - Optional lengths are 40', 60' & 80' (12.1m, 18.2m & 24.3m).

Utility Product Line QG-Series

STEEL FRAMEWORK

Norseman Structures' QG-Series buildings use high quality, in-line galvanized steel tube to provide customers with a product unmatched in the industry. Known for its superior corrosion protection, your QG-Series steel goes through a three step process starting with a layer of 99.99% pure zinc being applied to the surface. This layer is then topped with a conversion coating followed by a clear organic topcoat that seals the surface with a smooth finish. This triple layer provides a much higher corrosion protection coating than the traditional single layer of zinc. The interior of the steel tube is then painted with zinc enriched paint.

FABRIC COVERS

Our standard 12oz/yd², 23mil high performance cover fabric is manufactured specifically for your building and is available in a variety of colors. Fire retardant (FR) fabric is also available when required by your local building code. You can choose from either a highly translucent cover material or blackout fabric which is also available when natural light is not required.

FOUNDATIONS

Foundation options are varied and may include, but are not limited to:

- Concrete piles
- Precast concrete walls
- Precast concrete blocks
- Concrete pad
- Screw piles
- Ground anchors
- Ground stakes
- Shipping containers

ACCESSORIES

- Heating
- Flooring
- Passive ventilation
- Ridge vents
- Electrical
- Reflective insulation
- Air exchange units
- Electric louvers or fans
- Personnel doors
- Fire exit doors
- Emergency lighting
- Metal clad end walls
- Gas detection systems
- Shelving
- Overhead doors
- Door canopies

WHY NORSEMAN STRUCTURES

In addition to manufacturing buildings, Norseman Structures provides project management, technical representative services and complete building installations. Our team of experts will work closely with you to design a building solution that will work for you and your business.
